

## Getting Started Using eBooks on an Android Device with Axis 360

The following instructions will guide you through the process of downloading Blio onto a Android device to begin reading ebooks available from your library and Axis 360. The Android platform and appearance may vary on each device. Below is an illustration of steps necessary to use Blio on an Android. While the screen on your Android may not appear identical to that below, these steps will guide through the process for any Android device.

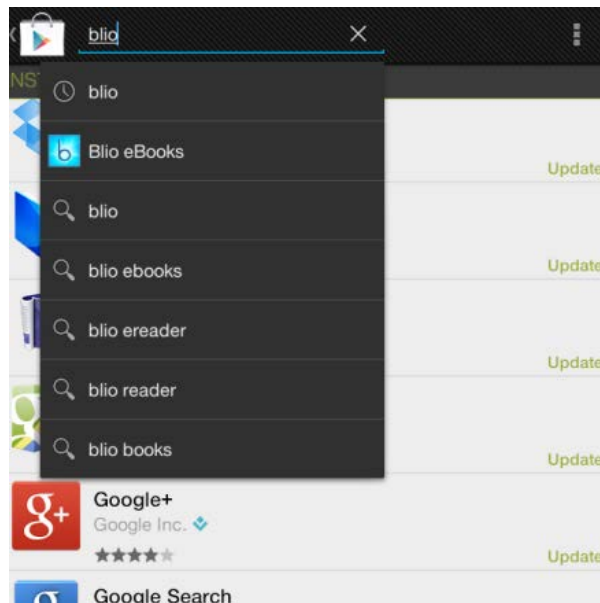

There are two ways to access and download the Blio app for an Android device.

- Download Blio from the App Zone on your library's Axis 360 site
- Download Blio from the Google Play store (keyword search for “Blio”)

Open Axis 360 in your Android’s web browser and click on the App Zone. Then select Blio Reader.

OR Open the Google Play Store and search for “Blio”

When the Blio Reader App appears, click on INSTALL to download.

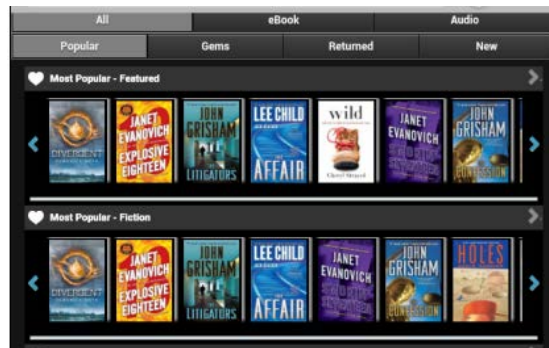

When Blio has finished installing, click to open the Blio Reader from the Home page.

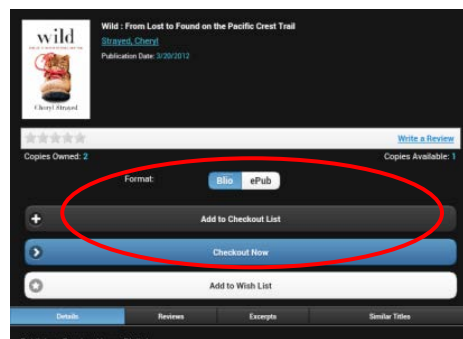

The first time you use the Blio Reader, you will need to create an account. Creating your account authorizes the usage and display of Blio formatted ebooks checked out from Axis 360. After your first successful log in on Blio, your log in credentials will be saved, and when opening Blio you'll automatically be logged in.

*Note: When you register for Blio there is a check box to "Receive Email Offers". Leaving this box checked authorizes Blio to send you consumer marketing emails from the Blio Bookstore.*

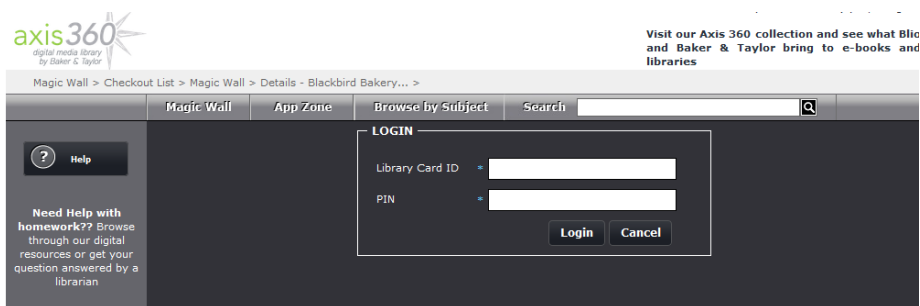

Now that the Blio Reader app has been downloaded to your Android device and your registration is complete, you can begin searching for ebooks available from your library's Axis 360 site.

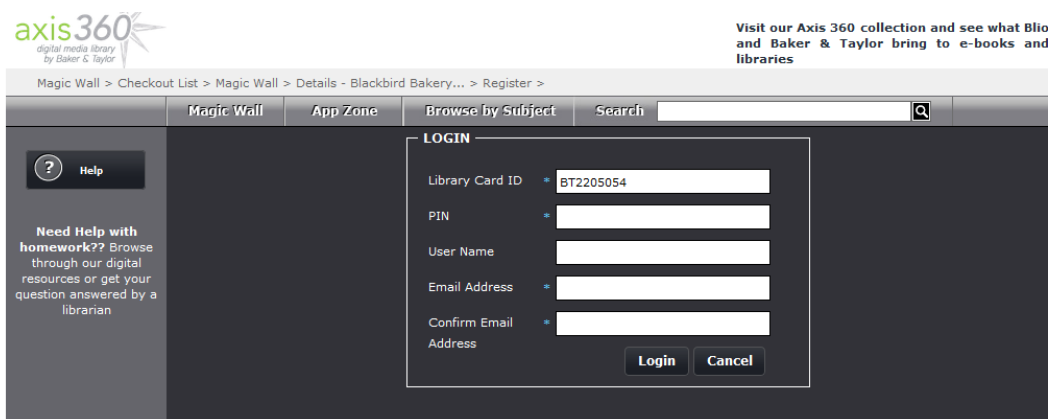

Once a title has been chosen to checkout, select the Blio format option and then click Checkout Now.

Enter in your Library Card ID and Pin. This information should have been provided by your Library.

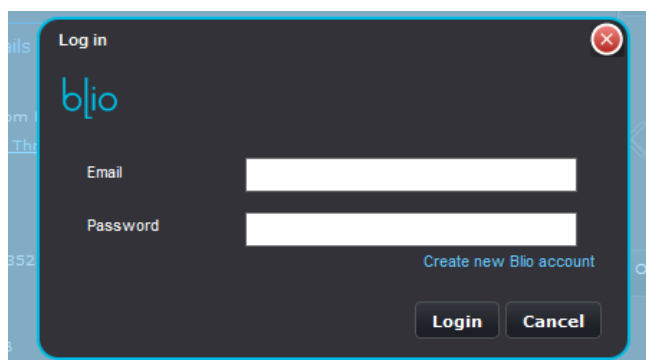

The first time you log into Axis 360, you will be asked to create an account. This account authenticates usage of Axis 360 ebooks through your Library Card ID. (Your email address is only used for notification of availability for titles put on hold.)

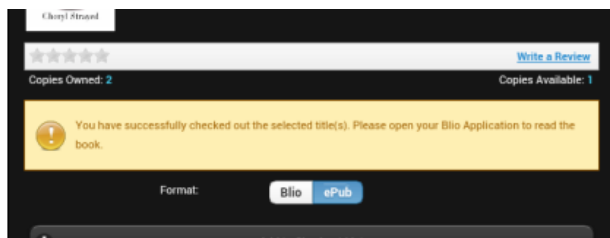

The image shows the Axis 360 login interface. At the top left is the 'axis360' logo with the tagline 'digital media library by Baker & Taylor'. At the top right is a link: 'Visit our Axis 360 collection and see what Blio and Baker & Taylor bring to e-books and libraries'. Below the logo is a breadcrumb trail: 'Magic Wall > Checkout List > Magic Wall > Details - Blackbird Bakery... > Register >'. A navigation bar contains 'Magic Wall', 'App Zone', 'Browse by Subject', and a search bar. On the left is a 'Help' button and a message: 'Need Help with homework?? Browse through our digital resources or get your question answered by a librarian'. The main area is a 'LOGIN' form with fields for 'Library Card ID' (containing 'BT2205054'), 'PIN', 'User Name', 'Email Address', and 'Confirm Email Address'. 'Login' and 'Cancel' buttons are at the bottom right of the form.

You will then need to enter the Blio credentials that you created earlier. After the first successful log into Axis 360 with your Blio email and password, this is saved for all future ebooks checked out for Blio.

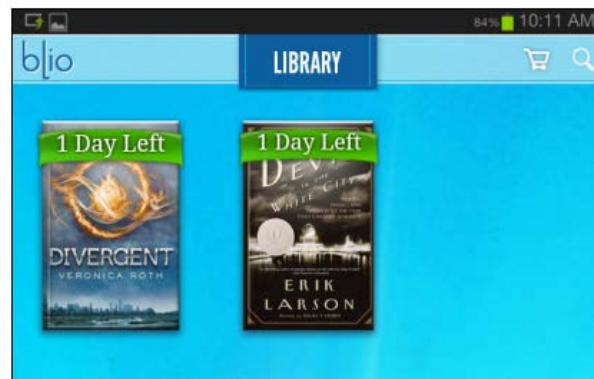

The image shows a 'Log in' modal window for Blio. It has a dark background with the 'blio' logo in blue. There are input fields for 'Email' and 'Password'. A link 'Create new Blio account' is next to the password field. 'Login' and 'Cancel' buttons are at the bottom. A red 'X' close button is in the top right corner.

Now that the Axis 360 and Blio accounts have been added and authorized, Axis 360 will confirm the ebook checkout.

The image shows a confirmation screen for an ebook checkout. At the top, it says 'Client Read' and has a 'Write a Review' link. Below that, it shows 'Copies Owned: 2' and 'Copies Available: 1'. A yellow banner with a lightbulb icon says: 'You have successfully checked out the selected title(s). Please open your Blio Application to read the book.' At the bottom, there is a 'Format:' section with 'Blio' and 'ePub' buttons, where 'Blio' is selected.

After the Check out is complete, Open the Blio Reader from your Android home page. Click on the cover image to begin reading.

*For additional checkout options available for ebooks on Axis 360, please refer to the Help Pages found online.*

Here are some helpful tips when using the eReading tools in Blio.

Menu options to change font, search and enter bookmarks.

Tap the screen for additional menu options; audio, content, access to bookmarks and more.

Check your progress in the book; move easily through the pages.

you can do about what they say, so you might as well just ignore it."

"Were you even listening?" The heat in my cheeks is gone, and my breaths are more even now. "Your story is just insulting. I won't listen to you anymore."
